

## St. Meilyr's Churchyard Headstones

There appears to be some discrepancies between some of the dates and even names when comparing details on the headstones with the burial details. The burial dates are often 3-4 days later than the the date of death. Not all people mentioned on the headstones seem to be recorded in the burials records, and not all people in the burial records appear to have headstones. There are many headstones which just have initials, some also have dates and some with nothing at all. By walking around the churchyard it is easy to see that there are many graves without headstones. There are also many which are unreadable. There may be errors in transcription by me, or even in the Parish Records - if you find any please let me know!

I have included a rough plan to help locate the graves. Hope you find this interesting.
